CAREER OBJECTIVE:

INFORMATION AND COMMUNICATION TECHNOLOGY

WORK EXPERIENCE:

: Contract Data Entry Clerk (2013)

I worked as a Data Entry Clerk in the Ministry of Finance (NAO) under the Registry and Archive Office with the following duties.

- Capturing data from the archives documents into the Ministries' website
- Correcting all errors on the form and report the changes to supervisors
- Verifying users and update their records from the system
- Arrange, file and box all paper documents to later be archived at warehouse
- Mark and label correctly all boxes then arrange them accordingly

: Contract Data Entry Clerk – ESCOM (2014 - 2015)

I worked with ESCOM and these were some of my duties:-

- Capture payment details for all paid up rectified non conformities or discrepancies
- Enter data from the Customer Verification form into the project database
- Produce and submit daily entered data report per enumerator per supervisor to the Group Supervisor
- Produce daily reconnection forms for the Regional Coordinator's approval

: IT Officer - Min of Health (2016 to 2018)

I worked as an IT Officer in the Ministry of Health under the HMIS office, with the following duties:-

- Capture data of nurses and other medical staff in the system
- Verifying and validating clients data from the Health EMR systems
- Offer computer technical and end user support
- Assisting in training of nurses and other staff in data capturing
- Organizing files both physical and digital for easy access by other staff
- Converting physical documents into digital for easy transferring
- Developing data capturing tools for different projects within the ministry.
- Producing reports for HMIS office

: IT Support Officer- Baobab Health

(2018 to 2019)

I worked as an IT Support Officer with Baobab Health Trust (Blantyre) and these were some of my duties:-

- Configure and maintain deployed **Electronic Medical Records** applications (LIMS, ART, OPD, ANC and EBRs)
- Travel to sites to deploy and train system users in data entry
- Provide on-site user support to newly and other deployed sites
- Conduct Data Cleaning procedures to ensure data integrity
- Provide technical support in data capturing
- Reporting data errors on daily, weekly and monthly basis; and assist on resolving them.
- Make regular backups on all data
- Producing product report (Liquidations, access and system performance)

TECHNICAL EXPERTISE

- **Operating Systems:** *Windows and Linux.*
- **Database Management Systems:** *MySQL, Oracle, Postgre SQL and SQL Server*
- **Other Skills:** *Git/Github, ODK, Microsoft 365, WordPress and ePrints*

PROFESSIONAL EXPERIENCE

: SYSTEM ADMINISTRATION AND SUPPORT:

1. **BAOBAB HEALTH TRUST** - I served in a supervisory capacity overseeing Ministry of Health applications and systems in collaboration with Baobab Health Trust. My responsibilities included user support and system maintenance for key platforms such as the District Health Information System (DHIS2) and Electronic Medical Record (EMR) systems.
2. **AMREF HEALTH** – whilst working with Ntchisi DHO, I collaborated closely with AMREF Health to establish and manage an e-learning laboratory. In this role, I was responsible for training and mentoring nurses on the use of digital learning platforms. I guided them through platforms such as Moodle and EdX, enabling them to enrol in various courses and programs designed to enhance their professional knowledge and skills.

: RESEARCH:

1. **NTCHISI DHO** - As a member of the African Evidence Network (AEN) and District Monitoring and Evaluation Coordinating Committee (DMECC) Ntchisi, I produced an evidence-based research document on “ANC attendance in first trimester”. The document was published in the AEN blog (January 2016) by Natalie Rebelo da Silva and filmed by the University of Johannesburg. *(Referee: Natalie Rebelo da Silva, University of Johannesburg, natalierds@uj.ac.za)* (Film link: <https://youtu.be/OGdYKHUXwv0>)
2. **WORLD VISION** – During my tenure with Ntchisi District Health Office (DHO), I contributed to a research project for Feed the Children in collaboration with World Vision. My role involved capturing both qualitative and quantitative data across various regions of the district, followed by data analysis and report preparation. To ensure comprehensive coverage, we employed diverse data collection tools including interviews, observations, audio recordings, and digital input through the Kobo application.

PROFESSIONAL QUALIFICATION

: BSc (Hons) in Business Information Technology (2018)

I obtained this qualification from the National College of Information Technology (NACIT)

Development Frameworks and Methods, Information Requirements Analysis, Enterprise Web Software Analysis, Information Technology Planning, Database Engineering

EDUCATIONAL QUALIFICATION

: Malawi School Certificate of Education (2007)

I acquired this qualification from William Murray Secondary School with the following subjects.

Biology, Business Studies, Chichewa, English, History, Mathematics, and Physical Science

PERSONAL DETAILS
